

GVE300

HD CAT5e/6 MiniExtender

The GVE300 HD Video/Audio Extender allows you to extend the distance between the 1080p media source and the display unit by up to 100 feet and 1080i media by up to 200 feet. It accomplishes this by means of a local transmitting unit and remote receiving unit connected by two standard solid Category 5 twisted pair Ethernet cables (or Cat 5e and Cat 6). The GVE300 HD Video/Audio Extender System is ideal for retail, show rooms, and large worship centers where remote displays are required. The Extender System is also useful for control and security purposes, where you can have the system unit in a secure area at the same time that you put the display in an area that is convenient for viewing.

- Extend HD audio / video signals through two CAT5e/6 cables
- Up to 100ft (30m) for 1080p resolution*
- Up to 200ft (60m) for 1080i resolution*
- HDCP compliant
- No power adapter is required
- Power LED and active signal LED for easy monitoring and troubleshooting
- Plug-N-Play; No software is needed
- Compact size

*Note: Extension range may vary with different devices or CAT5e/6 cable
