

GW4K30KIT

Wireless 4K @ 30Hz Video Extender with Local Pass-through

- Place your 4K TV nearly anywhere without the restrictions of HDMI cable lengths
- Stream wireless 4K audio & video up to 150 feet* to a bedroom or patio
- Setup two 4K TVs to share your 4K video content in a second location at the same time:
 - Connect the first TV to the transmitter's HDMI Output port with an HDMI cable
 - Receive content wirelessly from the same video source on the second TV

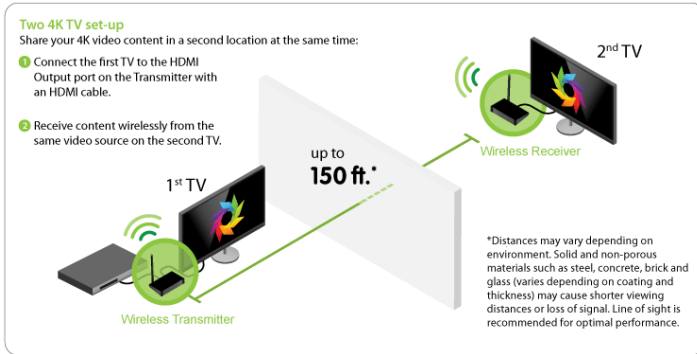

Stream Wireless Audio and Stunning 4K Video up to 150 Feet

Create a completely customized setup in minutes, and transmit your favorite movies, sports, and videos within your home. IOGEAR's Wireless 4K Video Extender takes wireless home entertainment set-ups to the next level of connectivity with flexibility and convenience. Capable of streaming 4K content along with stereo audio up to 150 feet* away with less than 200 Milliseconds of latency.

Hang Your TV Nearly Anywhere Without Wires

Have you ever wanted to hang your TV on your patio, or the living room wall, but dreaded the idea of exposed wires or added construction? The Wireless 4K Video Extender is the ideal solution, as it allows you to "cut the cord" and keep your sources out of sight. The configuration possibilities and uses for this solution are endless. Setup your A/V equipment in a media closet and transmit wirelessly to your TVs in the living room, patio, garage or just about anywhere in your home.
