

GWAVRB

Wireless Mobile and PC to HDMI® TV

Wirelessly Mirror Your PC or Android Device's Display

IOGEAR's Wireless Screen Sharing receiver is the perfect solution for wirelessly streaming video and audio from your PC or Android device to an HDTV, HDMI Projector or HDMI Display. Enjoy all your favorite content such as movies, videos, photos, applications and online sites including YouTube®, Hulu®, and Netflix® in Full HD without the hassle of connecting cables.

With support for Miracast, stream or cast content from your Android device or Windows 10 (OEM installations only) PC to an HDTV has never been easier.

Full HD 1080p Playback Support

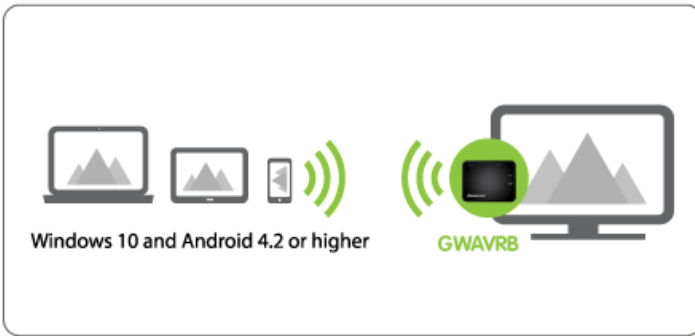

Cutting the wire from your Android devices or Windows 10 PC to your HDMI display doesn't mean compromising your viewing experience! With the Wireless Screen Sharing Receiver, you are able to stream video and audio from your PC, Android phone or tablet in 1080p resolution video ensuring that content being played back from your device looks as good on your HDTV or projector as it does on your device's display.

Wirelessly Transmit Video And Audio Up To 50ft Away

By using Wi-Fi to stream video and audio from your PC or Android device to a connected HDTV or Projector, IOGEAR's Wireless Screen Sharing receiver allows you to transmit content up to 50ft away from your HDMI display. This gives you the freedom and flexibility of streaming video and audio from your desktop, notebook or Android device located anywhere in a living room, office or classroom.

- Wirelessly display your favorite apps, games, videos, photos, music and Internet content from your Smart Phone, Tablet or Laptop to your HDTV, HDMI Projector or HDMI Display
- Send video and audio wirelessly up to 50ft (15m)
- Full HD 1080p video resolution playback support
- Works with Miracast™ Certified Devices
- Ideal solution for sharing PC content wirelessly at home, at the office and in the classroom
