MediaShair Wireless Media Hub w/Built-in Power Station

Wireless Media Hub

With the IOGEAR MediaShair Hub you can now take your movies, music, photos and documents on the go and share them with all your wireless devices. Just plug in your SD card, USB flash drive, or even your portable USB hard drive into the media hub and the built-in Wi-Fi connection shares the content with up to 7 Android, iOS, or laptop devices within range. The MediaShair Hub has a built-in battery for up to 9 hours of use between charges, and if your playback devices runs low on juice just plug in your charging cable to the USB port and the MediaShair Hub becomes a portable power station! Designed to be the perfect travel companion, the MediaShair Hub's Ethernet port even converts a wired internet connection to Wi-Fi. The MediaShair Hub is so versatile it can even serve as a Wi-Fi SD card reader for devices without a card slot or USB port!

Tired of not having enough space on your iPad for your movie collection? No problem, just plug in your external hard drive into the media hub and access hundreds of movies at any time! Taking the kids on a trip? With the MediaShair Hub they can each enjoy their favorite music and videos on their own wireless device. Does your hotel room only have wired internet? Simply plug the Ethernet cable into the MediaShair Hub's RJ45 port and use it as a media hotspot now all your wireless devices can connect to the internet. Want to quickly share photos while on your trip? Pop your camera's SD card into the slot on the MediaShair Hub, and then view or save your photos on any wireless device in range.

Free Apps for iOS and Android

What good is a media sharing device without full app support for the two largest mobile OS platforms? With the MediaShair Hub you won't have to find out the answer since IOGEAR provides free apps for both! Visit the App Store to download the app for your iPod, iPhone and iPad, or visit the Google Play store to get the app for your Android tablet or smartphone.

- Stream movies, music, photos and documents to 7 devices
- Perfect mobile media hub for traveling families- allows iPods, smartphones, laptops, etc to stream files at the same time
- Solves limited storage capacity problems for smartphones and tablets
- Ethernet port converts wired Internet to Wi-Fi
- Built-in Wi-Fi network
- Built-in SD card reader
- USB 2.0 port for flash drive or external hard drive connection
- Compatible with both PC and Mac formatted drives
- Wi-Fi repeater allows connection to existing Wi-Fi networks
- Supports VPN pass-through
- Built-in battery for up to 9 hours of playback while on-the-go
- Also functions as a portable battery for charging USB devices
- Free iPod/iPhone/iPad, Android and Kindle Apps
- Cigarette lighter charger included

How does it work?

- Fully charge the MediaShair Hub internal battery, then plug in a media storage device to stream music, movies, photos and files to all your Wi-Fi enabled devices while on the go!
- Connect to a SD Card, USB flash drive or external drive
- Connect Wi-Fi enabled devices to the MediaShair Hub network. Launch the MediaShair App* on your device or open your laptop browser to stream your media library or access the Internet**.
- Connect an Ethernet cable (not included) to a modem or join a wireless network to turn the MediaShair Hub into an Internet Access Point.

*Download the MediaShair App for iPhone®, iPod Touch® and iPad® from the App Store™, or from the Google Play Store™ for Android™ devices.

**Internet access requires Ethernet connection to your modem or wireless connection to a network.

- MediaShair Hub's built-in battery works as an emergency charger. Connect your device's original USB cable to the USB port and begin charging
