

GWHDKIT11

## Wireless HD TV Connection Kit

### Eliminate Cables Without Sacrificing HD Quality

With support for Full HD resolutions up to 1080p @60fps, you can place your HDTV or HD projector anywhere up to 150 ft. wirelessly from the video source without sacrificing picture and sound quality. Enjoy a stunning audio/video experience with the convenience of wireless transmission and the flexibility to eliminate cable clutter and move your TV to the patio or den for the big game or parties. Effectively transmit powerful long-range digital video across wide open spaces and living areas up to 150 ft. Save the time and expense of hiring installers to run HDMI cables through the ceiling and walls.

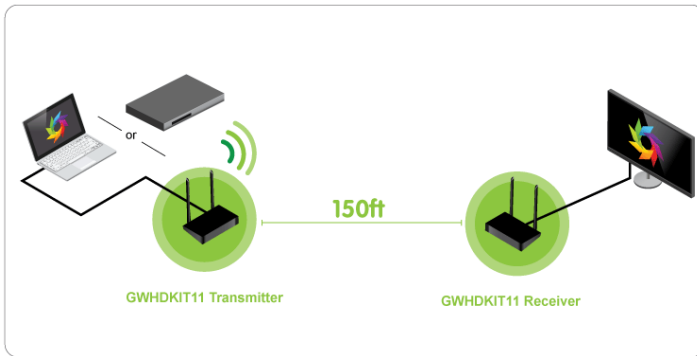

### Plug-n-Play

The Wireless HD TV Connection Kit comes with everything you need inside the box to get started quickly. The kit includes 2 compatible HDMI cables, so there is no need to worry about shopping for the right cable. Connect the HDMI cables between your source video device and the HDMI transmitter and between the HDMI receiver and your TV. Plug in power, and you are ready to enjoy your video content.

Setting up the Kit is hassle-free and does not require a Wi-Fi network or complicated security configurations. The included transmitter and receiver come ready with security enabled and are paired to create an independent wireless network connection.

- Transmits High Definition Video and Audio up to 150ft
- Supports resolutions of up to 1080p @ 60fps
- Supports Infrared (IR) Remote signal transmission to control source device
