

GWIR8101

IR Extension for Wireless HD Kit

The GWIR8101 is an infrared (IR) extender for the GWAV8141K (Wireless Receiver) allowing you to hide the wireless receiver and still have wireless remote control over your home entertainment source devices. It is a 3 conductor connector with dual bandwidth (Dual Band) 38KHz and 56KHz support for all the latest devices.

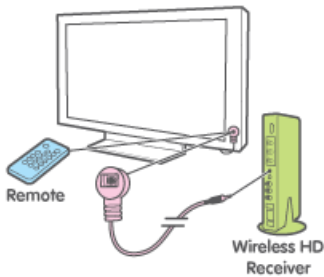

Get precise signal transmission between your remote(s) and home audio / video equipment for effortless wireless control of your devices.

- Allows the Wireless HD Receiver to be placed out of site
- Plugs in to the Wireless HD Receiver IR port for full wireless control over your A/V source devices
- Receives and passes your remote's IR controls to your DVR / Set-top box, Blu-ray player, and more
- A 3 conductor connector with dual bandwidth (Dual Band) 38KHz and 56KHz support

How does it work?

- Allows the Wireless HD Receiver to be placed out of site
- Plugs in to the Wireless HD Receiver IR port for full wireless control over your AV source devices
- Receives and passes your remote's IR controls to your DVR / Set-top box, Blu-ray player, and more.

- or
- 1 x Wireless HD Receiver (GWAV8101R)

Package Contents

- 1 x IR Extension for Wireless HD Receiver

Specifications

Function	GWIR8101
Cable Type	3.5mm IR Extension
Connectors	
Cable	3.5mm Mono Plug (3 conductor)
Cable Length	6ft
Capacity	30KHz ~ 56KHz
Power	
Voltage	5V @ 200mA

Dimensions	GWIR8101
Unit Dimensions	
Length	6ft
Unit Package Dimensions	
Height	4.85in
Width	3.2in
Depth	1.15in.
Weight	
Unit Pack Wt.	0.1lbs.
Unit Wt.	0.05lbs.
