

GWLR4K60KIT

Ultra Long-Range Wireless 4K @ 60Hz Video Transmitter and Receiver Kit

- Quickly add or change TV/display locations as needed
- Wirelessly send 4K Ultra HD video up to 600 ft.
- Supports 4K UHD resolutions of up to 3840 x 2160 @ 60Hz refresh rates
- Perfect for large homes, retail, medical lobbies, and small commercial applications
- Transmit from an HDMI®-enabled source to up to 3 TVs with additional receivers (GWLR4K60RX)

Flexible TV or Display Placement

Enjoy crystal-clear quality from an HDMI 2.0 source and the newest 4K Ultra High Definition (UHD) High Dynamic Range TVs and content with resolutions reaching 3840 x 2160 at a 60Hz refresh rate. By eliminating the bulk of HDMI wiring over long distances, the Wireless 4K Video transmitter and receiver affords greater flexibility in TV/display placement. Quickly place TVs in temporary environments such as on a patio or in the kitchen and add a second or third TV with additional wireless receivers.

Control Source Device Remotely With IR Support

Easily control your source remotely from the TV with the included IR blast and extension cables. Once the IR cables are connected, point your remote control at the Wireless 4K Video receiver and press a button to control the source. This feature only works from the system's HDMI receiver (GWLR4K60RX).

- Quickly add or change TV/display locations as needed
- Wirelessly send 4K Ultra HD video up to 600 ft.
- Supports 4K UHD resolutions of up to 3840 x 2160 @ 60Hz refresh rates
- Perfect for large homes, retail, medical lobbies, and small commercial applications
- Transmit from an HDMI®-enabled source to up to 3 TVs with additional receivers (GWLR4K60RX)
- Control sources & extend the IR remote range using the included IR blasters
