

GWLRRSSKIT4KRX

Additional Receiver for GWLRRSSKIT4K Long Range Wireless 4K HDMI® Video Kit

- Adds an additional wireless display to the GWLRRSSKIT4K in Splitter Mode (up to a maximum of 4) to extend your cable box, Blu-ray, etc. to additional rooms or locations around your home—perfect for adding an outdoor TV or projector for viewing on a giant outdoor screen
- Maximum output resolution of 4K 4096x2160@30Hz
- Mirror or extend your laptop screen or other HDMI sources to a big display or projector
- Range up to 600 feet with a single receiver under optimal conditions, using built-in MIMO technology
- Remote Console feature provides 2 USB ports for keyboard and mouse, allowing user to remotely control a PC or laptop
- IR extender allows control of video source from remote display
- Audio output provides easy connection to externally amplified speakers or a remote amplifier
- RS-232 port to extend control to serial enabled displays such as projectors
- Very low latency (average latency <10ms)

Interchangeable Long Range Wireless Splitter & Switcher Technology for Any AV Solution

IOGEAR Long Range Wireless 4K Switch/Splitter Receiver operates as either a wireless HDMI switcher to swap between up to 10* UHD sources to a wireless splitter sending a single UHD source to up to four 4K HDTVs or HDMI enabled projectors anywhere up to 600 ft. or 182 meters** without sacrificing picture and sound quality.

Expand Your GWLRRSSKIT4KTX Setup

Add additional receivers to expand up to four 4K HDTVs or displays in splitter mode.

Wireless Long Range Up to 600 ft./182 m range

Ultra-High Definition Support Up To 4K @30Hz

HDMI Switch Up To 4 Sources

- Adds an additional wireless display to the GWLRRSSKIT4K in Splitter Mode (up to a maximum of 4) to extend your cable box, Blu-ray, etc. to additional rooms or locations around your home—perfect for adding an outdoor TV or projector for viewing on a giant outdoor screen
- Maximum output resolution of 4K 4096x2160@30Hz
- Mirror or extend your laptop screen or other HDMI sources to a big display or projector
- Range up to 600 feet with a single receiver under optimal conditions, using built-in MIMO technology
- Remote Console feature provides 2 USB ports for keyboard and mouse, allowing user to remotely control a PC or laptop
- IR extender allows control of video source from remote display
- Audio output provides easy connection to externally amplified speakers or a remote amplifier
- RS-232 port to extend control to serial enabled displays such as projectors
- Very low latency (average latency <10ms)

Note: Maximum range is reduced with each additional receiver added

Requirements

- Source with HDMI Input.
- Transmitter

Package Contents

- 1 x Receiver.
- 1 x 12V/1A Power Supply.
- 2 x Antennas.
- 1 x Mounting Kit.
- 1 x IR Receiver Cable.
- 1 x HDMI Cable.
- 1 x Quick Start Guide for Receiver.
- 1 x Warranty Card.
