

GWSSKIT

Wireless Screen Sharing and Miracast

- Wirelessly display your favorite apps, games, videos, photos, music and Internet content from your Smart Phone, Tablet or Laptop to your HDTV, HD Projector or HD Display
- Send video and audio wirelessly up to 50ft (15m)
- Full HD 1080p video resolution playback support

Wirelessly Mirror Your PC or Android Device's Display

IOGEAR's Wireless Screen Sharing kit is the perfect solution for wirelessly streaming video and audio from your PC or Android device to an HDTV, HD Projector or Display. Enjoy all your favorite PC content such as movies, videos, photos, applications and online sites including YouTube®, Hulu®, and Netflix® in Full HD without the hassle of connecting cables.

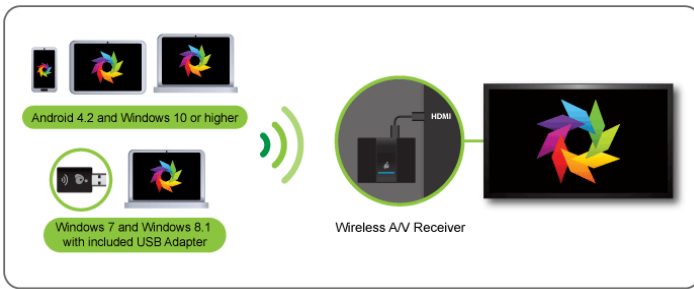

With support for Intel WiDi and Miracast, stream or cast content from your Android device or Windows 10 (OEM installations only) PC to an HDTV. For legacy operating systems such as Windows 7, 8.1 and 10 (upgraded installations from Windows 7 or 8.1 only), use the included USB Wireless Transmitter and software to mirror your PC display from a small screen to the big screen.

Full HD 1080p Playback Support

Cutting the wire from your Android devices or Windows-based PC to your HD display doesn't mean compromising your viewing experience! With the Wireless Screen Sharing kit, you are able to stream video and audio from your PC, Android phone or tablet in Full HD 1080p resolution ensuring that content being played back from your device looks as good on your HDTV or projector as it does on your device's display.
